Record Alberta Budget Will Be Presented Friday Night Late News Flashes

Navy Cruise Underway

VICTORIA, B.C., March 2. — (CP) — Royal Canadian Navy's cruiser Ontario and destroyer Cayuga sailed from the Pacific coast naval base at Esquimalt today for a month-long training cruise in southern waters. The destroyer Sioux, third unit of the squadron will sail later today.

Gov't Offer Still Holds

OTTAWA, March 2. — (CP) — Finance Minister Abbott told the Commons today the federal government's offer to turn rent controls over to the provinces still holds good. Stanley Knowles (CFC, Winnipeg North Centre) had asked about the status of the offer in the light of yesterday's Supreme Court ruling on rent control legislation.

Attlee Shuffles Ministers

LONDON, March 2. — (BUP) — Prime Minister Clement Attlee today announced a reshuffle of junior ministers with 15 changes in key administrative positions. In the shuffle, he brought in another woman member of parliament, Miss Margaret Herbyson, as one of two parliamentary undersecretaries in the Scottish office.

Acquittal Is Denied

MANCHESTER, N.H., March 2. — (BUP) — A defence motion for a directed verdict of acquittal was denied in Dr. Hermann N. Sander's mercy murder trial today. The action came soon after the prosecution had rested its case at 2:01 p.m.

Former Mayor Is Dead

WINNIPEG, March 2. — (CP) — Col. Dan McLean, 82, mayor of Winnipeg in 1928 and 1929, died today. Born in Hamilton County, Ont., he came west in 1892 and engaged in the flour milling business in Morden, Man.

TARDINESS PAYS OFF —AT LEAST ONCE

BEATRICE, Neb., March 2. — (AP) — Because everyone in the choir of the West Side Baptist church was late for practice, the church was empty when an explosion ripped it apart last night. The blast levelled the building. No one was injured. The toppling steeple sheared power and telephone lines, one of them connecting the studio of radio station KWBE with its transmitter. The station was off the air for nearly two hours.

U.K. Socialization Of Industry Halts Attlee Faces Left-Wing Revolt Inside Own Party

By R. H. Shackford
Exclusive to The Bulletin

LONDON, March 2. — (UP) — Prime Minister Clement R. Attlee told his new socialist cabinet today that he has decided to call a halt for the time being in the nationalization of British industry.

Attlee made his decision in the face of opposition from the left-wing of his Labor party and the danger of a substantial revolt later on.

He was believed to have interpreted Labor's narrow margin of victory in the general election last week as a sign that the country had had enough nationalization for the present. Labor was a majority of only seven seats over the combined opposition in the new parliament.

The Labor party had campaigned for the general election on a platform promising nationalization of the cement and sugar industries, meat distribution and water supply.

Attlee's decision means that the new government will make no attempt to carry out that program. The new cabinet, meeting today for the first time, was understood to have endorsed Attlee's decision to proceed with a policy of least rather than more socialization.

STORY THROSE SPEECH
High on the agenda for today's meeting was preparation of the speech which King George VI will open parliament formally next Monday. The King's speech traditionally is written by the government in power and outlines its legislative program for the coming year.

As now envisioned, the speech will not mention nationalization. The Conservative opposition will raise a delicate point in the subsequent debate by moving an amendment deploring the failure of the government to ask repeal of the act to nationalize iron and steel industry, effective next Jan.

Reliable sources said that, as a matter of fact, the government is looking for a graceful way out of the steel act.

It would be too embarrassing for government to sponsor a repeal act, which was one of the key planks in the Conservative party's campaign platform.

It was considered possible the new Nationalization Act would be repealed through a private member's bill, not a bill sponsored by the Labor party.

Further nationalization which the Labor party has promised will be dropped through a private member's bill in the election, the sources said.

At a private meeting yesterday of Labor MPs, a left wing faction headed by Health Minister Aneurin Bevan.

Track Team Starts Home

AUCKLAND, N.Z., March 2. — (CP) — Canada's Empire Games team started its voyage home today.

Crowds thronged the pier and cheered the Canadian athletes as the liner Wanganella left the harbor. Streamers stretched between the ship and the dock and a band played "Now is the Hour."

The Canadian contingent received a warm welcome from Empire Games officials aboard ship before departing.

They will visit Australia and Britain before making the final leg of the journey to Canada across the Atlantic.

13 Burned to Death In Two House Fires

MONTREAL, Me., March 2. — (AP) — A fierce dwelling house fire wiped out eight members of a Montreal family and injured a ninth seriously today.

Elwood Smith, about 35, a teamster, his mother, and his six children were burned to death. The children ranged from a baby to a 15-year-old girl.

Smith's wife escaped but was reported in dying condition in hospital.

Firemen said Smith perished with other members of the family when he went back into the house in an attempt to rescue them after escaping his wife to safety.

Measures in Kinohua, Wis., a fire wiped out a family of five in a small frame cabin in a trailer camp on the edge of the city early today. The blaze occurred in five-below-zero weather.

The dead were Edward Maxwell,

LONEY SIGNED BY ESKIMOS SAYS REPORT

WINNIPEG, March 2. — (CP) — The Winnipeg Tribune said today in a sports page story that Edmonton Eskimos of the Western International Football Union have signed Don Loney to a contract for the coming season.

Loney, an Canadian centre with Ottawa Roughriders of the Big Four for the last two seasons, had been dickering with other western teams before signing with Eskis, the story said.

3 Athletics Are Unsigned

WEST PALM BEACH, Fla., March 2. — (UP) — Pitcher Hank Wynn and infielders Gene Markland and Kermit West remained unsigned on the Philadelphia A's second day of spring training.

ORLANDO, Fla., March 2. — (UP) — Outfielder Ed Stewart was absent today when manager Billy Southworth assembled his Boston Braves squad. Southworth's initial workout was a day late.

Squad members scheduled to arrive on a special train from Boston Friday were late today. San Diego and San Francisco players were late today.

BRADENTON, Fla., March 2. — (UP) — Only pitcher Billy Stutz was absent today when manager Billy Southworth assembled his Boston Braves squad. Southworth's initial workout was a day late.

Squad members scheduled to arrive on a special train from Boston Friday were late today. San Diego and San Francisco players were late today.

TUSCON, Ariz., March 2. — (UP) — The Cleveland Indians today announced that righthanded pitcher Chuck Embree, acquired from the Browns, will be sent to San Diego of the Pacific Coast League.

Pitcher Phil Lewis, who was scheduled for another spring training today, he is taking \$30,000.

B.C.-Montreal In Five Hours

MONTREAL, March 2. — (CP) — A jet Venture of No. 404 Squadron BCAF, streaked from Vancouver to Montreal yesterday in the record flying time of four hours and 30 minutes.

The ship was piloted by F/Lt. Don Laumann, DFC and bar, of Edmonton over the 2,300-mile distance.

When Laumann landed at St. Hubert, he was greeted by a large crowd of fans from Montreal, he said.

It was rather boring," he said. "But previous record for the Vancouver-Montreal flight was six hours and 35 minutes, set by a TCA North Star Oct. 11, 1948.

Bulgarians Misled By Diplomatic Riff

LONDON, March 2. — (Reuters) — Ankara radio reported today that when the United States legislature left after diplomatic relations with Bulgaria had been broken, the population believed that the United States had broken off relations with Bulgaria.

quoting Turks returning from Bulgaria, that in the ensuing panic all those who could tried to leave Bulgaria.

Movie Actress Gets \$60 Fine

LOS ANGELES, March 2. — (AP) — Joan Wallace, former wife of actor Franchot Tone, yesterday paid a \$60 fine for her part in "the lace panties incident."

The fine was assessed on a charge of driving a car while intoxicated last Christmas eve. Police said she was wearing only lace panties and a red coat when arrested.

Union Cleared Of 2 Charges

From BUP, CP Dispatches
WASHINGTON, March 2. — Federal Judge Richmond B. Keach today cleared the United Mine Workers of civil and criminal contempt charges despite their refusal to comply with a decree to end their strike.

Keach announced that he had considered the government's petition and the evidence in the case and found the union "not guilty" of both civil and criminal contempt charges brought against it.

Keach's ruling apparently upheld the union's claim that the union's officers had done their best to comply with his no-strike order issued Feb. 11.

INDIVIDUAL ACTIONS
Union attorneys contended that 70,000 miners have remained away from their jobs "individually" by their own independent action.

Assistant attorney general H. Graham Mechem said the government "undoubtedly" will appeal the acquittal on the civil charge. It cannot appeal the criminal charge.

But an appeal would take time, and time is running out in the coal crisis.

Keach's action cleared the way for President Truman to take drastic action against the miners who held out. Barring an early contract settlement, which seems unlikely, Mr. Truman is expected to ask congress for power to seize the mines.

MINERS STAND
Many miners have said they would resume digging under a "bona fide" government seizure with the miners working for the government and the profits going into the federal treasury instead of to the mine owners.

Up to now, Mr. Truman has said he could take no further action while the case was in the courts. But Keach's action removed that obstacle.

Only this morning, Mr. Truman told his news conference that the coal crisis now is a very serious national emergency.

Rep. Eugene E. Cox, D., Ga., told the house today that the coal strike has developed into an insurrection against the government.

Part of the U.S. made the coal emergency more acute.

Unemployment in the allied industries is mounting.

More than 200,000 workers have been laid off by the 372,000 striking miners in idleness.

Woman Dies Of Overdose

A coroner's jury yesterday found Florence McDonald, 39, a patient at the Oliver Medical Institute, died as a result of an overdose of paralytic, administered to her by a hospital attendant.

It added the qualification that the woman's physical condition "was such as to contribute more to her death."

Miss A. Haight, giving evidence under the Canada Evidence Act, admitted giving the patient an overdose instead of six drams of the drug.

D. A. MacPherson, superintendent at the Oliver Institute, said the patient was being treated as a case to standard procedure and that the nurse was capable.

The mistake was called "an error in dispensing."

Report on Cost of Living Due Within Next Few Days

OTTAWA, March 2. — (CP) — was 61 per cent higher than the 1925-39 average, it represented a half-point drop from the previous month.

Increases in the allowable rent ceiling announced at the fall session of parliament probably will not be reflected in the new index. The rent sub-index remained stationary at 125.0 during December.

Bureau survey of rent changes are made on a quarterly basis. The last was completed in November and results of the new survey probably will not be announced until the following index.

In any event, the majority of landlords increasing rents were

\$100,000 Loss Suffered In Cold Lake Fire

SPECIAL TO THE BULLETIN
COLD LAKE, March 2. — A raging, \$100,000 fire here today was brought under control about 2 p.m. after destroying two buildings in the town's centre.

Breaking out early today the fire raged for hours destroying the White Lunch, a pool hall and Hudson's Bay department store.

A large gas-powered pump from Grande Centre (five miles distant) was brought in at the height of the fire and aided greatly in bringing the blaze under control.

Fire squads from Beaver Crossing, LeGoff, Ardmore and Fort Kent aided in the battle.

Others THREATENED
Contents five other buildings which were threatened filled the streets and overflowed on to the lakebed, but by mid-afternoon most of the owners were moving their stock back into their stores.

Greatest fear was that the Waite Shop would burn and little about the fire was still being played on it at 2 p.m.

Loss to the Hudson's Bay store was about \$70,000 and the coffee and pool hall lost made up the balance.

The Bay was operated by Dor Forsythe and the cafe by Les Poitier.

Cold Lake is about 200 miles northeast of Edmonton on the Alberta-Saskatchewan boundary. Its main industry is fishing.

Warm Waves Bring Balm

Wave after wave of warm fronts which have been surging across the prairies from the Pacific are bringing springlike weather to Alberta.

Temperatures last night were as high as 25 above in some regions and forecasts are for recordings up to 30 above today, Whitehorse has low of 26 above last night, while the high at May was 30 above.

High in Edmonton district yesterday was 19 above at 2:30 p.m., falling to the overnight low of seven above by night's close this morning.

See-Canada temperatures yesterday were:

IT HAPPENED TODAY

Finch Verse Given Strikers

Compiled by Charles MacFarlane
Telegraph Editor

A greeting card firm in New York, in effect, told 18 strikers today:

Roses are red,
Violets are blue,
The furniture goes,
No matter what you do.

And with that 18 cold and hungry sit-down strikers stood up.

For Fuld and Company of New York sent in the movers to haul out chairs and other equipment.

It's going to be moved to Catskill, New York.

The sit-downers are striking in protest against the company's plan to move to another city and to get severance pay.

The government-controlled Cairo Radio announced today the death of Hussein Fahmy Sadek, father of Nasser Sadek, 16-year-old Egyptian beauty. Sadek's death was featured in a broadcast which gave details of his funeral at the Sharmouk Mosque in Cairo.

King Farouk was represented by his chief military aide, Gen. Omar Farid Pasha. Nasser Sadek had been named in reports abroad as the fiancée of King Farouk.

Leon Leontovich of Radio City, New York, will produce the 1950 grandstand show at the Canadian National Exhibition in Toronto with Danny Kaye as the star, general manager Elwood A. Hughes said today.

Two newspaper editors were arrested and jailed yesterday for circulating government officials in Buenos Aires. They are Juan Antonio Solari, editor of the socialist party paper La Lucha, and Alberto Kleinert, editor of the nationalist publication Forjadores.

The Big Four postponed negotiation of an Austrian Treaty of Independence until April 28 at a session yesterday in which Russia was asked not to wish to conclude the agreement. It was the 21st meeting of deputy foreign ministers of Britain, the United States, Russia and France on a treaty.

Janet Blair was divorced in Los Angeles yesterday on grounds of cruelty. She said Lou Blush, record firm executive, preferred golf, poker and gin rummy to her company and to her. They have no children. She did not ask alimony.

An angry husband in Parma, Rome, took vengeance on his unfaithful wife by setting her alight on a red hot stove. Rome newspapers reported today.

The husband, 25, was older than his bride, found her with a youthful lover when he returned unexpectedly from a trip, the dispatches said, omitting names. The woman was reported seriously burned.

Queen Mary, 82, had an outing today in London for the first time since she came down with a bad case of tetanus a month ago. The Queen Mother left Maryborough House, her London home, in a car shortly before noon and was

Star Witness Claims Air Killed Patient

MANCHESTER, N.H., March 2.—(AP)—The state's star medical witness said today that he believed Mrs. Abbie Borotto was killed by an air injection in her veins administered by Dr. Henry S. Star.

Dr. Milton Halpern, deputy medical examiner of New York City, gave this testimony as the state heard the close of its first-degree murder case against the 41-year-old country doctor.

At the end of a long hypothetical question, Dr. Halpern said: "In my opinion the death was caused by an air embolism resulting from the injection of 40 cc's of air."

That is the amount of air the state charges Dr. Sander injected into Mrs. Borotto's arm last Dec. 4 in a gesture of mercy to end the agony of cancer.

Dr. Halpern said: "The basis for my opinion is that 40 cubic centimeters of air injected into the heart and pulmonary artery."

The prosecution medical expert testified that while the autopsy could not disclose presence of air it was "significant" that it did not reveal any other cause of death which would have necessarily caused as rapid a death as the time death occurred.

The preceding witness, Dr. William J. King of Canada, told the home town — said the defendant had told him Mrs. Borotto's veins were "open and airtight" when she was injected into her veins.

Yesterday, a pathologist gave testimony similar to that of Dr. Halpern.

The pathologist was Dr. Ralph E. Miller of Dartmouth College. He testified after the statement of Dr. Albert King was introduced saying that the 39-year-old woman had died of cancer before Dr. Sander shot air bubbles into her blood stream.

driven around the neighboring parks.

A woman and her three-year-old child, both too badly hurt to crawl away, lay for eight hours beside the body of their husband and father yesterday after their plane crashed against a mountain side near Beaumont, Calif.

The wreckage hung so precariously to a rocky ledge that rescuers had to lash it down before they could remove the woman and child and lower them to ropes to waiting stretchers below.

D. R. Rusk, 28, was killed in the crash. His wife, Esther, 28, daughter, Sharon Ann, a 12-year-old.

A moving performance of Thornton Wilder's "Our Town" in Ottawa, Kan., recently sent the Little Theatre Guild the Davies Trophy and a possible bid to the Dominion Drama Festival at Calgary in May.

This picture of life in a small town was the final entry in the Eastern Ontario Regional Drama Festival.

It drew nostalgic tears from several members of the packed house. Adjudicator Maxwell Wray, who termed himself a "precious hardened theatre person," confessed he had "responded tearfully" to the Brookville production.

Hollywood rumor has it that Jackie Cooper and Miley Parks have set their marriage date. They'll tie the knot next month.

Greater Trade Blueprint Outlined by P.E.I. Premier

By The Canadian Press

Premier Walter Jones yesterday gave the Prince Edward Island legislature his blueprint for expansion of the province's trade with Newfoundland and Labrador.

Observers believed it was the Liberal leader's last major speech before his appointment to the senate.

The leader of the Progressive Conservative opposition, Mr. W. J. MacMillan, commented: "You must be going to the senate. It's the best speech you have made."

Premier Jones speaking in a three-hour debate, forewarned great triangular trading route between Charlottetown, Quebec-Labrador and Newfoundland.

He said that if he was appointed to the Senate, one of his first tasks would be to press for immediate construction of the proposed Chignecto canal.

The Newfoundland legislature, also on three-hour debate, heard Resources Minister Edward Russell declare that while fishing remains the greatest single problem, Newfoundland must not lose sight of other resources.

The Quebec legislature adopted a bill to establish a social welfare court. Premier Duplessis said such courts would replace juvenile delinquency courts.

WHITE-COLLAR In the Ontario legislature, Agnes Macphail (C.F.-York East) said that the Ontario system is producing too many academic people today who want "white-collar jobs."

C. E. Bee (P.C.-Toronto St. Patrick) criticized compulsory government hospital insurance and cited the experience in British Columbia where he said the plan had resulted in a deficit of \$400,000 while creating a shortage of hospital attendants.

The Manitoba legislature heard the first major statement of the session on the principle of coalition. During debate on a motion of non-confidence moved by the anti-union group, Health Minister

East Fuel Crisis TORONTO, March 2.—(AP)—An emergency distribution centre will be established today at city hall to deal with "dramatic" calls for domestic fuel. The arrangement is made necessary by what E. B. Joyce, secretary of the Toronto Gas Exchange, terms a coal situation made "desperate because of supply and delivery problems."

Parliamentary space has been at a premium ever since May 16, 1941, when a German bomb blasted the old Commons chamber. The Commons now meets in the old House of Lords, while the years all in what used to be the King's robing chamber.

There are no individual seats for MPs in the present house. Instead, there are rows of red leather benches running parallel in a long, rectangular chamber, with the speaker's chair at one end and the bar—in this case a long strip of leather—in the other. Government members sit

on one side, opposition on the other.

Since there are no desks or chairs, benches accommodate as many members as the chamber can hold. The maximum number seated is usually about 400, but a high proportion of poorly members could have that figure.

These unable to find seats the next best thing—and hind the bar, which is officially outside the precincts of the chamber, stand and listen, but never directly in front of the speaker's chair or wait outside the door of the House.

Russia Government Accuses Finland

Violation of Two Treaties Claimed on Soviet Charges

Exclusive to The Bulletin

LONDON, March 2.—(BUP)—Russia charged today that Finland's failure to deliver some 300 alleged war criminals to the Soviets violated both Finland's treaty of peace and the Finnish-Russian treaty of friendship.

The new Russian attack on Finland was made public by radio Moscow a few hours after Juhani Paasikivi was sworn in as new president of Finland for a six-year term. Paasikivi defeated both communist and agrarian candidates in the recent election.

MEN GET NEW NAMES

In his inaugural speech Paasikivi announced a two-point program. He said his main objective would be to keep Finland free and "above all, to maintain good and fruitful relations between Finland and the Soviet Union."

The Moscow announcement disclosed the contents of a new note delivered to Finland earlier this week. It said Finland violated the two treaties by evading, in essence, the Soviet demand for returns of the alleged criminals.

The Soviet note rejected Finnish explanations that the persons wanted by Russia could not be found.

The Soviet repeated previous charges that Finland had attempted to aid many of the wanted men by providing them with false identities, including false names and identification documents.

Only 24 of the wanted persons have been handed over since the credits first were demanded on Sept. 15, 1947, the Russian note said.

Russia claims that all those sought are Soviet citizens.

Seizes Phone Lines TORONTO, N.Y., March 2.—(AP)—The state of New Jersey today seized all Bell Telephone Company facilities within its borders. Governor Alfred E. Driscoll ordered the seizure to avert a walkout by 12,000 phone operators.

CHS—Train No. 1 and 2, due at 2:30 p.m., leaving hours 10 minutes late and 40 hours 10 minutes late. Leaving for Vancouver at 2:30 p.m. and 4:30 p.m. from Winnipeg arrive at 9:30 a.m.

CPA—All trains on schedule. TCA—All flights on schedule. CPA—All flights on schedule.

Quality's Aim For Immigrants

Screening of Newcomers Protects All Industries

Uncontrolled influx of immigrants to the province is prevented by the Alberta government's present policy which selects new citizens on the basis of quality rather than quantity.

Hon. A. J. Hooke, minister of economic affairs, made this statement in the Alberta legislature today, speaking in the Throne speech debate.

An uncontrolled movement would have an adverse effect on industrial and economic expansion, the minister said.

SINGLE MEN

Applications which receive favorable attention usually come from single men between 18 and 35 years of age who have special skills, from single women between 18 and 35 who are qualified typists, nurses or domestics, and from young married couples without children. The latter are allowed to come to the province without sponsorship, provided the husband is a skilled worker.

Families are accepted providing they are fully sponsored by persons now established in the province, but additions to Alberta's unskilled labor force are considered unfavorable, Mr. Hooke said.

In 1989 about 4,000 persons from the British Isles and the Commonwealth will be invited to the province's immigration scheme, inquiries at Alberta Immigration and Citizenship Services indicated. Immigrants totalled more than 12,000.

Acclamations For Students

Nine of 11 student positions on University of Alberta Students' Union were filled by acclamations, it was announced today.

These included O'Rhyne, law senior, president; Joyce Morris, law senior, president; Peter Loughhead, law junior, secretary; John McDonald, junior, engineering representative; Ted Allan, commerce junior, treasurer; athletic board; Mary Miller, arts and science senior, secretary; athletic board; Jo Picher, arts, science senior, secretary; athletic board; Rob Hatfield, medical senior, president musical association; Fred Scott, law junior, president; National Federation Canadian University Students representative.

Positions which contested are union treasurer, and Alex Rastan, commerce senior, and Alex Rastan, commerce senior, president; Frank Betch, engineering junior, and James Dochy, engineering junior, in the field.

Eight positions are filled by faculty elections.

Extension Work Start For Monday

Excavation of the basement for the \$100,000 Macdonald hotel extension will likely commence next Monday, Poole Construction Co. Ltd. officials said today.

The Poole company was recently awarded the contract for excavation and concrete footings.

Today straw and coal are being burned on the site recently cleared of several old Jasper avenue landmarks, to draw frost from the ground.

The burning will continue until Saturday.

Atty Construction and Demolition Co. Ltd. recently completed the first phase, clearing of the site.

Varsity Work Is Broader

Universities are no longer content merely to transmit their heritage of knowledge.

They try to make students better and more useful citizens, with an understanding of practical social, economic and political problems and processes able to discharge their responsibilities in a democratic society.

This was the theme Dr. W. P. Thompson, president of the University of Saskatchewan, brought to Edmonton branch, University of Saskatchewan Alumni, at last night's meeting in King Edward Hotel.

Former Mountie New Magistrate

Arthur J. Haymet, former RCMP sergeant, yesterday was installed as magistrate of the Medicine Hat police court. He replaces S. G. Main, who took over duties as Edmonton's chief police magistrate. Magistrate Haymet was a member of the RCMP for 25 years and was past secretary of the Medicine Hat chapter of commerce.

NATURE PUTS a new dress on Edmonton these foggy mornings. But you have to be up before the streets are well aired to see it. Once sun climbs, hoar frost falls.

Scientific Farm Methods Demonstrated At Varsity

CAB OPERATORS TAKE TIME ABOUT LICENCE

Predicted flood of new cabs as a result of the new taxi bylaw has failed to materialize.

Applications for only 10 new cabs had been received by Licence Inspector Roy Foster to noon today.

Two present operators are asking two additional cab licences each, and two prospective operators seek three licences each.

Scientific methods in agriculture will be demonstrated to the general public at University of Alberta laboratories during Visitor Day on Saturday, March 11.

The demonstrations will be sponsored by the University of Alberta Agricultural Club.

Starting at 10 a.m., members of the Alberta legislature, representatives of Edmonton farm and equipment supply firms and members of farm organizations, will make a conducted tour of university agricultural laboratories.

NUTRITION

The part that audio elements plays in plant nutrition analysis will be demonstrated.

During the afternoon, starting at 12:30, high school students from Edmonton and district and members of the general public, will be taken on a tour of laboratories and university farm.

Visitors will be shown in visual demonstration how modern methods pay off in livestock, poultry and field crops production.

Soil analysis methods and insect control will be demonstrated.

Visitors will meet at the arts building for the afternoon tour and assigned seats.

University Agricultural Club Visitors Day is under direction of Stan Powers with Al Schindler tour manager. Tom Morrow is president and A. Peterson, secretary.

Roy Paul is directing publicity.

Riverdale Area Carnival Friday

Riverdale Community League Friday evening will cap its winter program with the crowning of their queen, Joie Dreveller, 2008 9th avenue.

Official will be Charlie Simmonds, president of the Federation of community leagues.

The programers include skating and ice events as well as stunts and clowning.

Cornell University has the largest foreign student enrollment in its history, 215 students representing 60 different countries.

City Map Committee Seeks Early Decision

Edmonton will try again March 15 to settle the question of a city theme and how to put the city on the map.

Members of the committee and representatives from additional organizations will meet in city council chambers at 8 a.m. Wednesday, March 15.

Tuesday night's meeting to do the job was adjourned because of poor attendance.

Mrs. Meta Totty, secretary, is sending notices to all organizations asking them to supply names and addresses of their representatives, so copies of the draft brief can be mailed to them for full study before the meeting.

It was agreed at Tuesday night's gathering to proceed with full consideration of the brief at the next meeting, regardless of attendance, but that a full attendance would give better consideration and more weight to decisions.

Convoys On Move Back From Yukon

Movement of army vehicles which took part in Exercise Swallowtail in the Yukon was underway today from Whitehorse to Edmonton.

The first of eight convoys was expected to arrive in Edmonton March 8. An army spokesman said four of the convoys are American and four Canadian.

IN EDMONTON TODAY

Legal Profession Seeks To Keep Tune With Time

The man in charge of a Canada-wide survey of the legal profession arrived in Edmonton yesterday.

He is Hon. Charles P. McTague, director of the Council for the Survey of the Legal Profession in Canada.

The council is an independent body, says Mr. McTague, but was originated by the Canadian Bar Association and operates under its auspices.

Mr. McTague is former justice of the trial division and of the appeal court of Ontario. At one time he was chairman of the National War Labor Board.

While in Edmonton he will confer with members of the legal profession in connection with the survey.

"We are trying to obtain scientific data concerning the changes in the practice of law during the past 50 years," explained Mr. McTague. "We live in a different age now. We are in an era of

big business, big labor and big government matters."

★★★

A southern girl, Maury Carlinian, 726-105A street, suffered minor bruises and shock when she was knocked down by a car on University avenue, in front of the Mount Carmel school at 11:30 a.m., yesterday.

Roy Hauer, 5504-106 street, the driver of the car, told police the girl ran in front of the vehicle. He said when he applied the brakes the car skidded, striking the girl.

★★★

Edmonton's best clearing for the week ending Feb. 2 totalled \$18,621,588 as compared with \$17,748,442 for the same period last year.

★★★

Veteran Edmonton musician, Vernon Barford is under treatment in University Hospital. He was taken suddenly ill last Monday. Mr. Barford is making good progress toward recovery.

NEW MAGISTRATE, S. G. Main yesterday assumed duties in Edmonton police court. An Edmontonian the new magistrate comes from Medicine Hat practice to succeed retiring Magistrate A. L. Millar.

Cancel Meeting With Ottawa

Edmonton's delegation to Ottawa has cancelled its scheduled Monday visit to the capital.

Commissioner John Hodgson said today the two ministers concerned, Works Minister Alphonse Fournier and Reconstruction Minister R. H. Winters, will both be absent from Ottawa, and another appointment will have to be made later.

Matters for discussion include changing the proposed federal building site from market square to the new Government Centre area north of the Legislative Building.

Yellowknife route for the Trans-Canada highway, possible move of the city's airport, and housing development.

Parliamentary Government

The decision of the supreme court of Canada that rent controls are within the power of the federal authority is less of a victory for rent controls than for parliamentary government.

For while the danger exists that the level of rents could rise beyond the economic capacity of the small wage-earner to pay, the danger is still greater that the constitution could become such a rigid and binding document that it would restrict the power of parliament to do what needs to be done at the expedient moment to do it.

The decision upholds the right of the federal government to impose rent controls.

But, more importantly still, it upholds the right of parliament to decide when an emergency exists that will justify the imposition of these controls.

In other words, the court has inferentially refused to make the text of the constitution superior to the will of the people in their parliament.

Danger in Political Refugees?

Of utmost significance are the words employed by Chief Justice Lord Goddard in imposing the maximum penalty of 14 years upon Lord Klaus Fuchs.

Lord Goddard said: "There is now given shelter to political refugees who may be followers of this pernicious creed who will disguise themselves and bite the hand that feeds them. It is clear that British authorities were culpably careless in placing invaluable scientific secrets in the hands of such a man as Fuchs."

But to what extent has the free admission of political refugees into Britain and Canada made possible lesser acts of treachery that have not yet and may never be uncovered?

No one wishes to incite a witch hunt among the displaced persons who have found refuge in Canada and most of whom are honest and sincere men and women who will doubtless become good citizens. But it is necessary that the screening of these people for dangerous political backgrounds should be most carefully and cautiously done.

as expressed through their representatives in parliament.

All the recent discussion about constitutional amendments has given rise to the fear that this country might suddenly acquire a constitution as rigid and unyielding as the United States Constitution whose inflexibility has created a good many of the governmental difficulties in that country.

And while it is admitted that the existence of federal and provincial governing bodies side by side makes it necessary that sharp distinctions be made between the functions and rights of the two, it is also admitted that the genius of the British form of government, upon which Canada's is patterned in broad lines, is the freedom of parliament to take expedient action without cumbersome processes of constitutional amendment.

This decision says down, inferentially, the supremacy of parliament.

New U.K. Vote
Said Desirable

The longer you study the British election returns, the worse they seem for the labor party. Labor has 315 seats with one more possibility. At the time of the March 2 by-election. This gives an overall majority of just over 100. That is too close for comfort, even if it can be maintained, but in a house of 625 members, elections are bound to occur frequently.

Since the previous election Labor managed to win 30 successive by-elections. That is a record that will be difficult to equal and there could easily be more than 30 by-elections during the next brief period. If they lose only four their majority would be gone.

During the previous Tory years, Labor improved its position in the House of Commons, the minority group. It had no chance of forming a government, but in the course of normal elections it chalked up more than twice the number of victories that the Conservatives now must expect to win.

When the vote of a government hangs on a by-election, there is always a tendency for a portion of the voters to switch simply to bring about such a change.

Cannot Hope

Thus Labor cannot hope to maintain even its present strength unless it can secure the opinion strongly behind it. It is the course of normal elections it chalked up more than twice the number of victories that the Conservatives now must expect to win.

There have been some dark suggestions regarding Aneurin Bevan, the Welsh firebrand. You may disagree with him, but Aneurin Bevan has the faculty of being able to hold the attention of the Commons at any time.

It is quite true that Aneurin Bevan is not the most effective speaker in the British House.

He is an extreme left-winger with all the abilities of an accomplished parliamentarian.

He has ridiculed government policy and he has ridiculed the Tories.

Prime Minister Attlee has repeatedly played his own party because it would not be the Tories.

Letters to the Editor

City of Glamor

Editor, Bulletin.—I would like to compliment you on your fine paper. I've always liked the Bulletin. I did a interesting to read all the news about the oil wells and everything else that's going on.

Edmonton happens to be my home town and for the past three years I've been living in the States. However, I have been reading a lot about Edmonton and the province of Alberta and I'm proud to know I've come from such a wonderful place.

Edmonton is a glamor city. It is very up to date. In every way and the people are glad. They have much to be thankful for, and the province has everything. It's a real gold mine and they have a wonderful future ahead of them. Providence we don't have another way, to spoil it all.

But hope and pray we can keep peace with the world and enjoy all our blessings.

MRS. S. REDMAN,
1601 St. George,
Sud. St. Marie,
Ontario.

Combating Communism

Editor, Bulletin.—In February 25 issue of the Bulletin, Senator John T. Hag, Progressive Conservative leader in the Senate, proposes more active counter-propaganda against Communism, who want to wreck our system.

Is Senator Hag not aware that our so-called system is systematically wrecking itself?

Our present system can be classified as a "price system"—a system of trade and commerce based on commodity valuation and employing any form of debt, interest, or money.

The price system was devised many centuries ago, and is completely unworkable in a security economy. The scene has now changed.

As for a wrecking job, the application of science to our productive mechanism has caused an abundance of goods and services, the distribution of which can no longer be effected through the mechanism of a price system.

It would seem logical that if science were applied to our social and economic problems, a solution would soon be forthcoming.

It did not seem too difficult for science to solve the problem of producing atomic energy.

As for a wrecking job, the application of science to our productive mechanism has caused an abundance of goods and services, the distribution of which can no longer be effected through the mechanism of a price system.

High Cost of Electrification

Editor, Bulletin.—I noticed in the papers that the member moved the reply to the speech from the throne expressed great satisfaction over the program made in rural electrification in Alberta during the past year. I want to say that my satisfaction is not shared by the majority of the rural people of Alberta.

It is quite true that farms in the more favored districts are being electrified at a fair rate, but it is also true that the being done on a basis which lacks any systematic plan and which, moreover, loads the whole cost of the lines on to the farmer.

The high cost of this, which now averages from \$800 to \$1,000 per farm, makes it impossible for the poorer farmers to come into the scheme at present. Many of the who were fought for Canada in the last war have been left off because of the high cost.

Actually the so-called plan which is being followed in Alberta, is nothing to brag about. It leaves the power companies in control and allows them to continue to extract high profits from their present lines while conceding the new lines to the responsibilities in the financing of rural lines.

I claim that if the power companies are to be allowed to continue to extract high profits from their present lines while conceding the new lines to the responsibilities in the financing of rural lines.

Spy's Notebook in Canada Was Tip Fuchs a Traitor

Exclusive to The Bulletin
LONDON, March 2.—(BUP)—Dr. Klaus Fuchs was trapped through a single word in a Russian agent's notebook found in Canada last year, informed quarters said today.

Court Rules On Magazines

OTTAWA, March 2.—(CP)—The common magazine field is wide open in Canada. The situation resulted from an Exchange Court judgment handed down yesterday which rejected an attempt by "True Confessions," an American magazine, to eliminate all other confession publications from Canadian newsstands.

The judgment did these things: 1. It dismissed charges against Alexander Valentine, Toronto publisher, of putting out magazines so similar to "True Confessions" that it infringed on the rights of that publication.

ONLY DESCRIPTIVE
2. It found that "True Confessions" was purely a descriptive title which had not acquired a secondary meaning and thus should never have been registered as a trade mark in Canada.

The result is that the word "confession" is not considered a registrable word. Anyone who wants to put out magazines with such names as "True Confessions," "Intimate Confessions," or any other kind of confessions can go right ahead.

Grain Crop Less In New Zealand

Exclusive to The Bulletin
WELLINGTON, N.Z., March 2.—(BUP)—New Zealand's wheat yield the season would be more than 2,000,000 bushels below last year's figure, the agriculture department said today.

The department estimated a yield of some 4,700,000 bushels compared with 2,500,000 in the last crop year.

Output was expected to total 2,600,000 bushels, against last year's 2,500,000 and harvest 2,400,000 compared with 2,250,000.

Wheat output declined because less acreage was sown and because of continued dry weather.

BOREDOM FEAR KEEPS MOTHER OF EIGHT BUSY

WORCESTER, Mass., March 2.—(AP)—Housewives who think they are busy should meet Mrs. Winifred W. Ryan, 47, of Spencer. Mrs. Ryan, at 47, is mother of eight children, and with her husband has logged more than 20 years as a signal operator for the New Haven railroad—working nights.

Besides the children, she has two farms, one in Winterport, Maine, 25 cows, seven dogs, nine cats, and makes all the clothes for her children and linen for the house. She commutes 22 miles each night to work.

"Had all my children at home," she says. "They've never had a sick day in their lives. Neither have I. If I weren't busy, I'd be bored stiff."

SHAKE UP SYSTEM

Simultaneously the British government began a sweeping shakeup of its security system to plug loopholes disclosed in the Fuchs trial. Some retirements and resignations among Britain's top intelligence directors are reported likely.

One glaring weakness of the intelligence system was revealed in the Fuchs case. This was the loophole through which an admitted Communist such as Fuchs was entrusted with top-secret Anglo-American intelligence information despite the fact that his "good" Communist has Russian sympathies.

One source said a series of "courts of inquiry" had been held in the various domestic and foreign intelligence agencies to ascertain how Fuchs' trial as a spy was so long missed.

The net didn't begin to close around Fuchs until last year, when an intensive atom spy hunt in Canada produced a Russian agent's diary containing Fuchs' name and a series of cryptic notations.

The investigation was intensified because Fuchs was the third leading atomic scientist in Britain, head of the theoretical research department at the Harwell atomic centre.

CASTING BALLOTS at Hoboken, N.J., are stockholders of United States Steel Corporation in special stockholders' meeting that they approved by overwhelming majority employee pension and insurance agreements which settled steel strike last November. Revised pension and insurance plans were scheduled to become effective March 1.

FINANCE BRIEFS

Report Shows CN Railway Holds Shares in U.S. Line

OTTAWA, March 23.—(CP)—Transport Minister Chretien today said a reply in the Commons today showing that the government-owned Canadian National Railway owns 20,000 shares valued at \$2,000,000 in the Hall and River Coal Company near Belgrade, Ohio.

The reply was for Solon Low, Social Credit leader, who indicated the shares had cost the CNR \$1,200,000 and that the railway had made advances of \$1,200,000 to the coal company for capital expenditures at the beginning of this year.

LONDON.—(Reuters)—German banks with rates of 1 to 2 points were a bright feature of the London foreign exchange today. In the Dominion, long-term Canada issues were stronger, while shorts were generally easier. In the provinces, Quebec, Ontario and Manitoba were firmer, with a good demand. Corporations were more quiet, with B.C. Electric being slightly easier.

WINNIPEG.—(CP)—A fair shipper demand in oats and to some extent in barley featured early dealings on the Winnipeg grain exchange today. Moderate offerings were well taken. Some

OTTAWA.—(CP)—The federal government paid out \$200,000 in freight subsidies last year to help transport western coal to eastern Canada.

Figures tabled in the Commons for the month of January 1950 show that Ontario and Quebec received 448,128 tons of coal from Saskatchewan, Alberta and British Columbia.

TORONTO.—Offering is expected to be made shortly by Green-Shield, Co. Inc. and Wood, Gundy and Company Limited of an issue of \$10,000,000 Industrial Acceptance Corporation Limited four per cent sinking fund debentures to be dated April 1, 1950 and to mature April 1, 1958. It is understood that the debentures will be offered at par.

TORONTO.—Giant Yellowknife Gold Mines reports that in the month of January 1950, 111 tons of nearly 30 cents of every dollar of revenue each year, for the products of other Canadian industries. The figures, published here, were compiled by the Canadian Mining Association and show 400 tons per day.

Montreal.—The Canadian Pacific Railway showed a deficit in operations during the month of January of \$1,841,700 as compared with a deficit of \$30,124 for the same month last year, a statement of earnings issued by the company showed today.

DETROIT.—The president of the Ford Motor Company says the steel industry must be shut down in two weeks if the auto strike continues.

For instance, \$5 million was spent in Campbell Red Lake gold mine, much of it on materials, before an ounce of gold was produced.

At East Sullivan mine, \$5.5 million was spent before production started. Expenditures for mines undergoing initial development include considerable amounts for such items as lumber, timber, building products tools and machinery.

Redwater Well May Give Valuable Data

Imperial's Waybrook No. 1 well, where casing was set last week in the D-3 zone, may provide the key to some unknown factors in the Redwater field, 13 miles east of Wainwright.

Waybrook, a 15,000,000 cubic feet a day gasser in the Viking and Lower Cretaceous, got salt sulphur water on the second or third day. Casing has been run to 4,656 feet in D-3 and the well will be used for pressure observations in the water horizons encountered, principally D-3.

It is believed that the D-3 zone is connected with the D-2 zone in the Redwater field, 13 miles away, and possibly with undrained fields in the area. In other words, the well is a one massive red, and the porosity between Redwater and Waybrook is connected.

Oil Withdrawal.—If this is so the constant withdrawal of oil at Redwater will result in the lowering of water pressure in the reservoir at Wainwright. If this happens it will tell the extent of the water body pressing against the oil body in the Redwater field, and engineers will be able to lower the water level. The water drive will be valuable production data as to rates and recoverable reserves of oil.

Pacific Petroleum has already announced its intention of participating in the cost of the pressure observation experiment. Imperial expects that nearly all Redwater operators will also participate in the experiment.

CHICAGO.—(AP)—Hogs were steady to 20 cents higher today on reports running 1,000 head below expectations of the trade. Cattle were steady to strong, but not enough was done in the lamb trade to lift prices.

TORONTO.—(CP)—Cattle trade was dull today with prices near the level of the previous week. Receipts reported by the Dominion marketing service, for the week ending March 20, show 100,000 head of cattle, 100,000 head of sheep and 100,000 head of lambs.

MONTREAL.—(CP)—Prices were fairly strong on the bond market today. In the Dominion, long-term Canada issues were stronger, while shorts were generally easier. In the provinces, Quebec, Ontario and Manitoba were firmer, with a good demand. Corporations were more quiet, with B.C. Electric being slightly easier.

ROYALTY Oil Company is setting casing in its Pasko well seven miles south of the end of Turner Valley. Pipe is being set a few feet in the time which was contacted at 1,812 feet.

There has been no news on oil prices on tests at Pasko nor on the news there has been to the contrary. Some tests have been run but it is to be remembered that many producers in Turner Valley refused to yield to the test of a wellhead installation. This may or may not be the case at Pasko.

Imperial established a potential one at one of its earlier completion. The well, completed at 1,250 feet. The well tested an opening of 1,666 barrels per day during a four-hour potential test.

On its latest quarter counterparty, Bahoy Oil Company is getting ready to put down its first well. The well is being drilled by the Bahoy company, preparing the location for initial venture. Bahoy has no other wells in the area and is slated to begin next week-end.

At Esplanade Imperial has recovered oil in the pipe in another drilled test at its No. 2 well, which opened up about five feet of D-2 pay at the well.

This column recently has related some phases of its activities and here are a few statistics.

City Manager

Resigns Office

DRUMHELLER, March 23.—Mayor L. A. Bennett announced here this morning that he has resigned his office. He said this morning that the business proposition he plans to enter at the month-end has been hanging first since he returned from serving overseas with the Canadian engineer corps.

British Stop Indies Buying In Canada

Bermuda and Jamaica Follow
London Order From Dollar Pool

MONTREAL, March 2.—(CP)—Britain's action in directing the West Indies not to buy certain goods in Canada was criticized here by John A. Marsh, general manager of Canadian Exporters' Association.

Chinese Raids Not Directed At U.S. Ships

TAIPEI, Formosa, March 2.—(UP)—Nationalist Air Force headquarters said today that American ships are not on the target list of Nationalist bombers raiding Communist-held ports.

"No deliberate attempt will be made to attack American ships," a communiqué said in reference to the attacks made on two U.S. flag vessels in Tientsin recently.

The communiqué said it was not always possible for pilots to identify ships, especially when they were forced them to fly at high altitudes.

"Any shipping activity in closed areas faces the possibility of bombing, but there will be no deliberate bombing of American ships," the communiqué said.

Instructions have gone out from the government's highest officials to the air force to use extreme caution not to endanger U.S. ships if possible.

Newsprint Critic Invited To Visit
MONTREAL, March 2.—(CP)—Representative Emanuel Celler of New York and members of the House Judiciary Committee may accept an invitation to visit newsprint mills in Canada.

The invitation was extended Feb. 28 by H. M. Fowler, president of the Newsprint Association of Canada, after Mr. Celler had charged that newsprint business in Canada was a monopoly.

The most amazing feat since 1492 is in the comedy
TIGHT LITTLE ISLAND
MONTREAL, March 2.—(CP)—The film is well supported by a host of popular Hollywood talent, including Judy Holiday, who was one of the film loudest laughs as the money wife, and Tom Dwell, who portrays the hedonistic woman who finally turns.

David Wayne gives a Noel Coward flavor to the role of the stylish and sophisticated Jean Hagen rounds out the cast as the biopic "other woman" whose affair with Dwell starts the hilarious fireworks.

"Adam's Rib" starts tomorrow at the Capitol Theatre.

Sask. Insurance Has Best Surplus
REGINA, March 2.—(CP)—A record surplus of \$205,000 was accumulated in 1949 by Saskatchewan government insurance office, according to the annual statement of the office tabled in the Saskatchewan legislature today. In 1949 the surplus was \$79,684.

Deserters In U.K. Abound
WINNIPEG, March 2.—(CP)—Some 30,000 deserters from the armed forces are living by their wits in Britain, Dr. P. H. Smyr, vicar of two London churches, told a service club here today.

"These deserters were 'probably responsible for most of the wave of crime about the war,'" Dr. Smyr said.

The deserters had to live by their wits because they could not get jobs without registration cards. (Neither could they get ration books and "as a result they are living on the fringe of the society, scavenging where they can.")

"Sometimes I think it would be a good thing" if amnesty were granted the thousands of deserters, Dr. Smyr added.

Dr. Smyr, vicar of Holy Trinity and St. Luke's churches in London's Kenilworth district.

Rail Rates May Be Discussed
OTTAWA, March 2.—(CP)—Prime Minister St. Laurent told the Commons yesterday it will be given an opportunity to discuss the newly-announced increase in freight rates, if it can be done within the rules of the chamber.

He suggested this might be done when the House discussed the Transport department estimates. If it cannot be done the government will endeavor to see whether some other opportunity could be provided.

Reserve Army Battles Blaze
Special to The Bulletin
HAMILTON, Ont. March 2.—(BUP)—Reserve army soldiers helped five fire companies battle an apartment-house blaze that left 24 persons homeless.

The fire last night caused an estimated \$70,000 damage as it ripped through the block which housed apartments on the upstairs floors and stored on the street level.

An emergency clearing station was set up in the dining room of Hamilton's Armoury Hotel as eight families groped through the flames in their nightclothes into freezing outside temperatures.

Deserters In U.K. Abound

WINNIPEG, March 2.—(CP)—Some 30,000 deserters from the armed forces are living by their wits in Britain, Dr. P. H. Smyr, vicar of two London churches, told a service club here today.

"These deserters were 'probably responsible for most of the wave of crime about the war,'" Dr. Smyr said.

The deserters had to live by their wits because they could not get jobs without registration cards. (Neither could they get ration books and "as a result they are living on the fringe of the society, scavenging where they can.")

"Sometimes I think it would be a good thing" if amnesty were granted the thousands of deserters, Dr. Smyr added.

Dr. Smyr, vicar of Holy Trinity and St. Luke's churches in London's Kenilworth district.

Rail Rates May Be Discussed

OTTAWA, March 2.—(CP)—Prime Minister St. Laurent told the Commons yesterday it will be given an opportunity to discuss the newly-announced increase in freight rates, if it can be done within the rules of the chamber.

He suggested this might be done when the House discussed the Transport department estimates. If it cannot be done the government will endeavor to see whether some other opportunity could be provided.

Reserve Army Battles Blaze
Special to The Bulletin
HAMILTON, Ont. March 2.—(BUP)—Reserve army soldiers helped five fire companies battle an apartment-house blaze that left 24 persons homeless.

The fire last night caused an estimated \$70,000 damage as it ripped through the block which housed apartments on the upstairs floors and stored on the street level.

An emergency clearing station was set up in the dining room of Hamilton's Armoury Hotel as eight families groped through the flames in their nightclothes into freezing outside temperatures.

HELD OVER
(Adult)
TIGHT LITTLE ISLAND
MONTREAL, March 2.—(CP)—The film is well supported by a host of popular Hollywood talent, including Judy Holiday, who was one of the film loudest laughs as the money wife, and Tom Dwell, who portrays the hedonistic woman who finally turns.

David Wayne gives a Noel Coward flavor to the role of the stylish and sophisticated Jean Hagen rounds out the cast as the biopic "other woman" whose affair with Dwell starts the hilarious fireworks.

"Adam's Rib" starts tomorrow at the Capitol Theatre.

Sask. Insurance Has Best Surplus
REGINA, March 2.—(CP)—A record surplus of \$205,000 was accumulated in 1949 by Saskatchewan government insurance office, according to the annual statement of the office tabled in the Saskatchewan legislature today. In 1949 the surplus was \$79,684.

Cancer Film Assists Focus Cure Progress

By John E. Bird
Exclusive to The Bulletin
OTTAWA, March 2.—(BUP)—Canada and United States linked hands in the battle against cancer and produced a technical motion picture called "Challenge—Science Against Cancer." It showed some causes of cancer and described some methods used in treating the disease.

The picture will be shown for a first time at a month. It will be operated with the Canadian film board. The Institute of the United States public health services heard about the project and asked to be jointly assisted with the work.

The film was made by the department of national health and welfare in co-operation with the Canadian film board. The Institute of the United States public health services heard about the project and asked to be jointly assisted with the work.

FAMOUS IN "Mr. and Mrs." roles, Spencer Tracy and Katharine Hepburn score another success in hilarious comedy, "Adam's Rib." Film tells of district attorney and his lawyer wife who are ideally married until they face each other across courtroom. "Adam's Rib" starts tomorrow at Capitol Theatre.

Rib-Tickling 'Adam's Rib' Rated Hilarious Comedy

Story of a district attorney and his lawyer-wife who take opposite sides in a trial is the hilarious background for MGM's latest hit, "Adam's Rib." Co-starring Spencer Tracy and Katharine Hepburn, the film offers moviewegers a distinctive comedy as many years. They seemed like a family—in fact, I saw more of them than I did my family."

LAST FEELING
"The next six months were a difficult period. I had a 'last feeling' and wondered if anyone would ever want to hire me."

Several studies did and she took the job of the mother of two grown children in "The Story of a Divorce."

Bette told of her trepidation in making terms for the part: "I peered around the set and didn't see a familiar face. There was also a feeling of strangeness."

British Oil Strike Snag At Suez Canal

CAIRO, March 2.—(AP)—Britain and Egypt are at odds over Egypt's refusal to allow passage through the Suez Canal of tankers carrying crude oil to the British-occupied territories in Israel.

The issue grew out of Britain's attempt to restrict oil imports from hard-currency areas.

Britain draws important quantities of crude oil from Middle Eastern and Persian Gulf fields. Some of this formerly was refined at Haifa.

The Palestine war caused a rift in connections between the fields and Britain's Haifa refineries.

Iraq stopped pumping oil through a pipeline linking its wells to the Israeli plant.

Egypt claimed a ban down on tankers bound from the Persian Gulf to Haifa through the Suez Canal.

HAIFA ECONOMY

Britain's demands for resumption of traffic recently have become more insistent both in Baghdad and Cairo.

The British Embassy here refuses to discuss the Haifa refinery issue, answering "no comment" to all questions.

Meanwhile, British press comment that Egypt's refusal to let Haifa-bound tankers through the canal was harming Britain's already battered economy stirred sharp reaction in the Egyptian press.

The newspaper Al Balagh, a mouthpiece of the Wafdist (government) party, editorially asserted Britain's policy in Palestine was solely responsible for the situation. In a comment typical of the Egyptian press, it said:

DOWN REASONING

"Britain must bear the consequences of its policy toward the Palestine question. It has permitted the flow of oil to control Palestine. It has allowed Jewish immigrants to flock in great numbers to Palestine and supplied them with arms to fight the Arabs . . .

"Israel is an enemy of Egypt and the other Arab countries. How can we allow passage of (the tankers) to an enemy country?"

SUES FOR \$6,000 Industrialist Wins Jury Trial Right

NEW HAVEN, Conn., March 2.—(BUP)—Industrialist Vivian Kellems has won the right to a jury trial in her suit to recover \$6,000 seized from her bank account for failing to deduct federal withholding taxes.

Federal Judge Carroll Hinds denied a motion by the government yesterday to compel the Stoughton, Conn., manufacturer to name either the government or Connecticut internal revenue collector John P. Fitzpatrick, but not both, as defendants.

In denying the motion, Judge Hinds said he took into account the fact that if the government was named as sole defendant, Miss Kellems would be heard by a court and not by a jury. Miss Kellems' counsel said she wanted a jury trial.

Miss Kellems contends that the government cannot legally make her the collecting agent for the withholding taxes of her employees. She told the workers at her cable-grip factory last year to send their taxes directly to the government.

FARNBOROUGH, Hampshire, England.—(CP)—Rev. F. B. Hutchinson has asked children to help in his campaign to "stop grown-up talking nonsense."

NEW INSIGNIA for Winston Churchill, leader of Britain's Conservative party, is this V-shaped rosette which he wore while touring constituency of Woodford, Essex, in recent election campaign. His constituents re-elected Churchill to his House of Commons seat. —AP Wirephoto.

Landlords Expected Controls to Continue

From BUP, CP Dispatches

The Supreme Court ruling that federal rent controls are valid is "more or less what I anticipated," R. M. Willes, Chitty, counsel for Canadian Federation of Property Owners' Associations, said in Toronto.

Because of indications that provincial governments planned to take over rent controls if the decision had gone the other way, "I'm not so sure" that the disposition is a great, he said.

"There still are hopes that we'll get rid of controls, probably within a year. If the provinces had taken over, we might never have got rid of them."

CAN APPEAL TO U.K.

The government's current rent controls apply only to domestic rental. Controls were first introduced two years ago. Extension of controls for at least another year will cover only eight provinces. Saskatchewan has accepted the federal offer to take over the controls April 1. Newfoundland entered consideration with controls of its own.

Since the reference of controls was made to the court before it was ruled to the final court of appeal in Canada, an appeal against the court's decision still can be made before the Imperial Privy Council.

E. J. Pringle, secretary of the Toronto Property Owners' association, said the question of appeal will be considered at an early meeting of the Canadian Federation of Property Owners' associations.

The Associated Property Owners of British Columbia will not be a factor on federal rent control decisions from the privy council, A. E. Craddock, secretary-manager, said in Vancouver.

"The decision is not in the public interest," Mr. Craddock said. "We shall appeal immediately to the privy council."

In Ottawa a top-level government economic adviser said the number of persons affected by rent controls was dwindling every day.

He said it was impossible to estimate the number of Canadian

Alberta Indians Neglected MP Says Half Have Tb, Half VD, Conditions of Life 'Appalling'

OTTAWA, March 2.—(CP)—F. D. Shaw (SC-Red Deer) yesterday criticized the government for "failing" to relieve "appalling" conditions among some 350 Indians on the Rocky Mountain House reserve in his constituency.

He told commons that at the last session he had drawn attention to inadequate housing and to the lack of proper health facilities for Indians in the Rocky Mountain House Reserve of his Alberta constituency.

PROMISE NOT KEPT

He had been assured steps would be taken to rectify the situation. But during the between-session recess he had visited the reserve and found conditions had not been corrected.

It was estimated that 50 per cent of the Indians had tuberculosis and that a similar percentage had venereal diseases.

There was no plan for adequate health provisions on the reserve. He said the Indians on the reserve only wanted to become self-supporting, but they were receiving no direction from the government on what to do.

The reserve contained some 25,000,000 feet of good lumber that could keep the reserve going for 25 or 30 years. Because of the lack of training the forests were being "murdered."

URGES CHEAP, CIVIC LOANS

Revival of the federal government's pre-war policy of making low interest rate loans to municipalities for essential improvements was urged by William Mott (Lib-New Westminster, B.C.).

In 1937 the federal government restricted legislation under which money was loaned to municipalities through provincial governments at two per cent interest, he said.

If the municipalities now could obtain such loans they could do much to relieve the unemployment situation.

The federal government could help by re-instituting the system.

NO WORKS AVAILABLE

If W. H. Hargrave (CCF—Kootenay West) said the government had said it had a shelf of post-war projects to be used to relieve unemployment.

After the war, there had been a great deal of enthusiasm in the provinces about the possibilities of co-operative public investment works to be undertaken by the provinces and the dominion. The provinces had expected that the federal government would provide leadership, but it had failed to act.

First reading was given a CCF bill to reduce the voting age from 21 to 18 years.

U.S. Loan Will Help Tito Out Of Tough Spot

Special to the Bulletin

WASHINGTON, March 2.—(BUP)—Officials said today that Marshal Tito now faces his greatest political and economic hazards, but probably will survive—with the help of a new \$20,000,000 U.S. loan.

The Export-Import bank lent Yugoslavia the money last night to buy American machinery and other heavy equipment to stabilize its economy.

This was the second \$20,000,000 loan the bank has made to Tito. Officials said the latest one might be the pay-off move in America's campaign to split Yugoslavia and Russia.

Responsible Americans here say that if Tito can last the summer, his battle against Stalin will be won.

TILBURY, Essex, England.—(CP)—Anthony Nunnery, 14, can't swim but that didn't stop him from rescuing a boy from drowning. He has been awarded a Royal Humane Society Parchment in recognition

More Dollars Abroad Urged

OTTAWA, March 2.—(CP)—Frank Brown of Vancouver, former deputy minister of income tax, said

EDMONTON BULLETIN, Thursday, March 2, 1950

Yesterday in an interview that is a financial and economic commitment by dollar countries in use of the "pound shortage" in the 19th century by encouraging investment in undeveloped areas.

Fine quality, choice flavor, full satisfying strength . . . it takes but three to give you "tea as it should be."

Buy Nabob and you're sure of all three qualities in one delicious blend. It's Nabob for complete tea satisfaction.

Finda Air Age OK

TAMPA, Fla. — (UP) — Mrs. Martha Ann Freeman liked her first airplane ride so much she promised to take another on her 80th birthday. The ride was a 15th birthday present.

THE GREATEST FURNITURE SALE IN EDMONTON'S HISTORY

And here's
Why!

We're a wholesale establishment. We sell, ordinarily, only to retail stores. But we have, in stock, and on display in our show rooms many home furnishing items that have been discontinued by manufacturers. It is our policy to supply retailers only with items that can be continuously stocked, consequently we have decided to offer these discontinued lines directly to the public. We cannot possibly list all items, or quote prices, but we fully guarantee both quality, and that every article on sale is either wholesale, or less than wholesale price. This is the first time, to our knowledge, that such a sale has occurred—it is truly the opportunity of the half century! Extra staff on hand to serve you at door opening time tomorrow at nine.

FURNISH YOUR HOME WHOLESALE!

Rugs, Occasional Furniture, Kitchen Suites, Bedroom Suites, Living Room Suites, Lounges, Lamps, etc., etc.

Out of a Can of Salmon a Thrifty Meal for 6.

There are so many interesting ways to serve Canned Salmon. In piping hot family dishes, Canned Salmon combines wonderfully with basic foods to give you tasty meals at a real saving. For example:

Pick a Can of Salmon

1 1/2 lb. Canned Salmon, flaked
2 cups hot water
2 tablespoons butter
2 tablespoons oil
2 tablespoons minced parsley

2 tablespoons grated cheese
2 cups hot milk
Paprika
1 cup green beans

Boil potatoes until tender, slice in half and wrap up potatoes in foil. Add 1/2 cup milk and butter and just enough hot water to make a sauce. Boil 1/2 hour. Add 1/2 cup of cream and 1/2 cup of milk. Add 1/2 cup of Canned Salmon and lightly fold the Canned Salmon into the potatoes. Sprinkle with paprika on top and place potatoes under broiler for a minute.

Outside Agent Said Cause of Fatal Crash

Special to the Bulletin
QUEBEC CITY, March 2.—(BUP)—The explosion that caused an airplane to crash at Sault au Cochon, Que., killing 23 persons last Sept. 9, was definitely the result of an outside agent, an aviation expert testified today at the murder trial of J. Albert Guay.

Frank M. Francis, Canadian Police Always chief engineer, named the witness stand as the crown sought to drive home its contention the plane crashed because Guay continued to have a time-hoeb aboard.

Guay was accused specifically of murdering his wife, Rita, who was one of the aircraft passengers, by sabotaging the plane.

"The only logical cause for the explosion was an agent not a part of the aircraft, but aboard the aircraft at the time of the explosion," Francis testified.

BLAST IN COMPARTMENT
 "The explosion occurred in the left hand side from luggage compartment and had such force that three sections of the luggage compartment were found at a considerable distance from the main wreckage," he added.

Francis said some parts of the compartment were found as far as 1500 feet away from the wreckage and "traces of stitching were found on clothing which I presume had been in the luggage compartment."

When Francis mentioned the stand yesterday as the crown's first expert, he said nothing but a carefully-placed time bomb could have caused the crash.

His charges were answered by Guay, the Social Credit party's candidate for St.-Dumais, who said he was not involved in the crash.

Control Over Exports Stay
 OTTAWA, March 2.—(CP)—Although the government wants to "interfere as little as possible with normal export operations," it still exercises control over the export of 91 Canadian commodities.

The report, tabled in the Commons, gave the reasons for continuing export control:

1. Need to fulfill commitments under the Anglo-Canadian food contracts.

2. Continuing shortage of steel and building products required for domestic consumption.

3. Possibility that Canada may be used as a "back door" in the movement of United States goods into Canada for shipment to another country.

Senate Probe Of Immigration Is Recommended
 OTTAWA, March 2.—(CP)—The senate probe the way today for two big studies before adjourning until March 14.

Senator W. A. Buchanan (Lab.) gave notice of a motion for revival of the chamber's important series of investigations into the immigration situation.

It would direct a committee to examine the immigration act, its operation and administration and such matters as the desirability of admitting immigrants to Canada.

The committee, under Senator Cairns (Cons.), would study the type of immigrant preferred, their availability, Canada's ability to absorb them and the appropriate terms of admission.

It would direct a committee to examine the immigration act, its operation and administration and such matters as the desirability of admitting immigrants to Canada.

BELLIS LIT UP FIRST TIME

BELLIS, March 2.—Town of Bellis has been supplied recently with electric lights. The main streets are lighted for the first time and a land of opportunity has been in lines of electric washers, irons, vacuum cleaners, and other appliances.

Good Wishes Sent To Pope

VATICAN CITY, March 2.—(Reuters)—Telegrams and letters of good wishes from all parts of the world began to flow into the Vatican last night for Pope Pius, who will be 74 today.

The Pope will spend his birthday—and the 11th anniversary of his coronation—quietly working in his library in the Vatican palace. There will be no ceremony.

"Stop crying, Jimmy," the officer chided his son as they sped toward the hospital. "Your mother is all right."

Came the reply from Mrs. Rogers. "That's not Jimmy crying. That's your new son."

Get Third Convict In Sank Escape

MOOSE JAW, Sask. March 2.—(CP)—Robert Tomlinson, 38, of Regina, one of three convicts who escaped from Regina jail last Saturday, was recaptured yesterday in a downtown hotel room without a struggle.

The other two convicts—Thomas Deal, 35, of Winnipeg, and Carl Jones, 37, of Vancouver—were captured Tuesday.

Life Sentence In Murder Try

PORT ARTHUR, March 2.—(CP)—Allen Gagnon, 36-year-old husband, was sentenced today to life imprisonment by Chief Justice J. McNeil in Assize court on a charge of attempted murder.

Gagnon pleaded guilty to unlawfully wounding Charles Moss, department of veterans affairs official from Valentin sources who said it was the 12th such unfounded report to circulate concerning the present Pope.

PODERSKY'S

DAYS OF '98 still live on in spirit in these colorful Yukon paddle-wheel river steamers seen wintering on slips at Whitehorse. During last month's season they carry in year's supplies for the territory, bring out gold and base metal ores. They team to dream of days gone by as air age transports and jets roar overhead.

Big Money to Oil Monopolies Is Assailed by Secored MLA

Race Entries

Rebel Social Credit A. V. Bourcier touched off fireworks in Alberta legislature yesterday.

He accused the government of "reckless oil and money" money which would be shared by big oil monopolies, bond holders and the government. He appealed to the "rapidly deteriorating" party to return to the principles of its founder, the late William Aberhart.

His charges were answered by Guay, the Social Credit party's candidate for St.-Dumais, who said he was not involved in the crash.

He said the Social Credit party was not involved in the crash.

Gov't Courses Available To Merchant Navy

OTTAWA, March 2.—(CP)—Government courses in 74 subjects are available to veterans of Canada's wartime Merchant Navy.

A return tabled in the Commons for Maj.-Gen. G. H. Pearson (PC) announced that the courses were available to the former merchant seamen following the war.

Merchant seamen are not likely to fill the taxpayers with boundless joy when they know he must foot the bill in taxation, Mr. Bourcier charged.

The government's recent decision to retire a portion of the public debt, and the "cautious" policy of the government's out-

letting in the Finance speech "does not suggest that even in the smallest measure any attempt will be made towards the establishment of a truly Christian democracy."

Share of the average Albertan in the province's wealth will be "logically small," Mr. Bourcier forecast.

"The bag should be shared by the all monopolies, the bondholders and the government," he said.

He criticized particularly the government's oil policy which "leaves the field entirely in the hands of large monopolies who can pay a million dollars or more down on the counter at any time."

Intense Cold Hits Ontario

TORONTO, March 2.—(CP)—Ontario battled another spell of intense cold today and forecasters said there would be no letup at least until Friday.

The latest snap of brisk, but not severe, cold hit mid- and late afternoon.

Among the low temperatures last night were 20 below zero at Port Arthur, nine below at Sault Ste. Marie, 14 below at North Bay, and 27 below at Kapuskasing and White River. It was quite so cold during the night. It was another serious frost above at Toronto, six at London, seven at Windsor.

Jack Carson In Divorce Suit

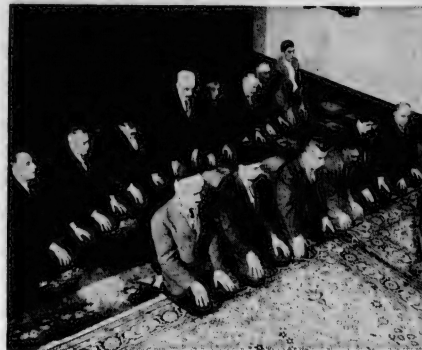

LOS ANGELES, March 2.—(AP)—Jack Carson's wife, who dropped a divorce suit in 1946 after saying she didn't want to give testimony that would "hurt Jack," has filed a new petition. This time she charges "extreme mental cruelty."

Mrs. Carson, in public life singer, was in Germany and yesterday under a property settlement, she will receive \$10,000 cash, \$1,000 a month alimony, and custody of their children, John, 9, and George, 7. Carson is a native of California.

U.K. Security Shake-up Seen

LONDON, March 2.—(Reuters)—A shake-up is expected in British security services following the announcement yesterday of Sir Klaus Fuchs who quit a year for betraying atom secrets to Russia.

More arrests are expected. At least one "security" contact has been identified.

EDMONTON has two of Canada's most unusual churches. One is the only Moslem mosque in the country. These men are at prayer in mosque, kneeling in front of niche which points to east, indicating direction of Mecca where their prophet Mahomet is buried.

MODERN architecture makes second church unusual. Commonly known as "round church," it is St. Anthony's Roman Catholic church on 108 street at 82 avenue. Church has tip-up type seats, hinged kneeling pads. Architecture is complete break with tradition, was designed by two Anglicans.

AT ST. ANTHONY'S, parents take restless children to crying room, follow service through windows, loud speaker system. Room accommodates 50, also serves as private chapel for weddings. Building cost \$250,000, is pride of congregation.

Old and New Chapters in Greatest Story Ever Told

on the TOWN...

By Jack DeLong

Puerile Preamble

People like Edmonton's Arthur J. Brown have it kind of tough all right. Just because Mr. Brown was born on Feb. 29 he gets cheated out of a lot of birthdays. . . . A far more horrible predicament would be working for a firm that set Feb. 29 as a payday. . . . And what about the husband with a good wife born on Feb. 29 if he happened to forget her birthday? . . . One safe bet: Feb. 29 will never be the date for paying income taxes.

A current "best-seller" at the city news stores is certainly not the kind of magazine you'd like to relax over in front of the fire place.

It sells for one dollar and has 110 pages filled with: "See schedule A under Form T-3," etc., etc.

The title: "How to Prepare Your Income Tax." I took a free flip through the pages by courtesy of clerk Billy Bradell and then bought an Esquire. I like those figures better.

Clerks over at the Macdonald thought they were colorblind when two guests signed Whightman and Blackman on the register.

Things became even more confusing later when Wright and Wrong checked in.

More Devaluation

This devaluation business is catching. I devalued the Royal Bank of Canada by \$23,000,000 yesterday when I wrote that a columnist has not got to alight on a bank having \$12,000,000 in paid up capital.

Honestly, I don't think it's possible to apologize to \$35,000,000. Anyway, why don't they paint those figures on the windows like they did in 1913?

"Bud" Corcoran who has been working in the United States Consul office here for 23 years is going on a vacation March 11. Naturally he's heading south of the border, for six weeks of golf and sunshine in California.

Although "Bud" had all his schooling in Edmonton he was born in Spokane, Wash., and still retains American citizenship.

C.P.R. vs. Sleep

Realist-portsman Charlie "Chuck" Henderson and insurance adjuster Art Lilly both live lying on the South Side. You can't blame them for that because the South Side is a very nice part of the city to live in.

But "Chuck" Henderson and Art Lilly can't sleep at nights. The reason they can't sleep at nights is not because they do anything to be ashamed of but because they live right beside the railway tracks. The engineers all seem to have too much steam at nights so they let it off by blowing their whistles real loud right underneath the Henderson-Lilly bedroom windows.

When I told Elegant Eddie that train whistles keep Mr. Lilly and Mr. Henderson up at nights he said: "Well what do they expect? Didn't they ever hear that whistling keeps the spirits up?"

A quiet goodnight to all and especially to people who could get a good restful sleep in a boiler factory.

100 Acres Were Saved By Seeding

J. C. Fuhr, farmer from Beach Corner in the Stony Plain district, cashed in on three years' soil conservation work yesterday. He won the giant Chamber of Commerce cup awarded the farm operator in the four districts adjacent to Edmonton whose land shows the greatest "one year" improvement.

The chamber's annual "Save the Soil" competition saw 20 other farmers, four of them VLA holders, win prizes for conservation efforts.

RECOVERED ERODED LAND

Presentations were made by district agriculturists E. J. Whitbread and J. M. Fontaine during the first day session of the joint Chamber of Commerce-Department of Agriculture seventh annual "agricultural short course."

Fuhr, a \$25 district prize winner in 1947, will retain the big silver cup for a year and a small replica permanently.

He gave credit to the agricultural courses staged in Edmonton annually for showing him how to save 100 acres of land that were rapidly eroding. The land was saved, he said, when he seeded the threatened area to alfalfa and sweet clover.

Next year he plans to add another 50 acres to the program.

"GOOD YEAR" AHEAD

Winners of Chamber of Commerce cash prizes in the contest, by districts, are: Stony Plain, Alex Zeigler, \$50; Matt Serrano, \$25; A. E. Krause, \$25; Mike Nornay, \$25; Strathcona, C. M. Fulton, \$50; Neil McLean, \$25; J. B. Corcoran, \$25; Lous Meyer, \$15; Sturgeon, L. M. Fraser, \$50; R. E. Austin, \$25; Glen H. Smith, \$25; Archibell Dand, \$15; Morinville, Leon St. Martin, \$50; R. E. Miles, \$25; McDonald Bros., \$25; L. E. Pischette, \$25.

Winners of special prizes in each district, awarded by the municipalities, are: R. W. Aronson, Stony Plain, \$25; A. Osbaldeston and Son, Strathcona, \$25; R. Ferguson, Sturgeon, \$25; and N. S. Caspio, Morinville, \$25.

Presentations of Junior Chamber of Commerce cups, made to the Douglas MacLellan, Morinville, for best showmanship at last year's district contest, were made to Mrs. J. M. Fontaine and Junior Chamber president Lyle Johnson made the presentation.

DAFFODIL is the Welsh national flower. Checking to make sure this one is on right is Delys Gittins, of 12228-109 avenue, who came from Wales 18 months ago. D. O. Roberts, 10836-55 avenue, chairman of St. David's Society dinner last night, is recipient.

Welsh Offer Tributes To Their Patron Saint

By Don Buckley
Bulletin Staff Writer

Cafodd Y Cymry Amser Lawen Yn Y Corona Nos Gw!

Dewi Pawb Mewn Hwyl.

A complicated sentence for most Edmontonians, but had you approached someone sporting a daffodil yesterday, you could have had the solution for the asking: the Welsh had a whole of a time last night at Corona Hotel.

TRIBUTE TO ST. DAVID

The occasion was the annual banquet of the St. David's Society of Edmonton and everyone who claimed Welsh blood was on hand to pay tribute to the patron saint of Wales.

Speakers were Hon. N. E. Tanner, provincial minister of lands and forests; Mayor Sidney Varma and Rev. E. Williams, B.A. of All Saints Cathedral.

Replying to a toast to "Canada and the Province of Alberta" by Miss Delys Gittins, exchange teacher in Edmonton from North Wales, Mr. Tanner spoke of Alberta's rich natural resources and compared the province with several American States.

Songs were sung by Jack Jones, Mrs. Len Williams, Pat James and Jack Williams and Richard Jones Hyfain Rheuwedg a Thiesen (sic) Songs were also provided by the cream and cake.

Coyotes Breeding In Park Areas?

BAN PLACED ON BURNING

With loss of four and one-half million dollars, Alberta experienced one of the worst forest fire years in its history in 1949.

This year burning permits will not be issued after spokesman said. It was the first time the government has been forced to take such action and it will be carried through unless there is a late season rain during the spring.

He recommended airplane hunting, organized hunts and the use of cyanide, guns and poison in warfare against coyotes and wolves.

He said these measures would be "only sedatives—not cures" until the predators are destroyed in the national parks.

Farm Income Not So High

Too many people think the farmer gets more money than he should, Agriculture Minister D. A. Ure yesterday laid a lash on Edmonton Chamber of Commerce and northern Alberta farmers in Macdonald hotel.

The farmers, some 350 in all, are attending the chamber's three day Agricultural Short Course at the Sales Pavilion of Exhibition grounds.

NEVER GET FAIR SHARE

"The idea that farmers share a lot of money is quite untrue," declared Mr. Ure. "The farmer has never received his fair share of the national income."

In 1948, the best farming year in Alberta's history, average income from farms in the province was \$3,000, he said. "But naturally, this figure is theoretical and a great number of farmers made nowhere near that."

Last year, farmers made up some 30 per cent of Canada's population, but they received only 1.28 per cent of the national income, said Mr. Ure.

He called on income "interest free," but only a small part of the country's total income when compared with agriculture.

Mortgage indebtedness on farms has been going down steadily "and this year it will go even lower," predicted Mr. Ure.

Member Claims Sanctuary Given Predatory Animals

Coyotes and wolves are on the increase because federal regulations give them sanctuary in national parks.

The theory was advanced by Gordon Taylor (C-Brumley) in the legislature yesterday.

Coyotes and wolves "go on their ravages outside the parks and then return to the parks for asylum," he said.

He recommended airplane hunting, organized hunts and the use of cyanide, guns and poison in warfare against coyotes and wolves.

He said these measures would be "only sedatives—not cures" until the predators are destroyed in the national parks.

Alberta legislature may ask the Dominion government to subsidize an additional interim payment immediately on oats and barley de-

ferred to the Canadian Wheat Board.

Notice of motion to this effect was to be made in the legislature today by C. I. Sayors (S-Camrose).

Initial payment made by the wheat board was 70 cents a bushel for No. 1 feed barley and 47½ cents a bushel for No. 1 oats.

Notice of motion stated the payments represented too small a portion of the real value of the grains.

IT TOOK HARD work to get this soil improvement cup of C. O. McIntyre, president Edmonton Chamber of Commerce, presented to J. C. Fuhr, Beach Corner.

FOUR EX-SERVICE MEN, VLA farmers, won Chamber of Commerce save soil awards. These three recipients were Reg Austin, Sturgeon; R. W. Aronson, Stony Plain; C. E. Osbaldeston, Strathcona. Fourth was A. E. Krause, Morinville.

U.S. Atomic Control 'Cockeyed Monopoly'

NEW YORK, March 2.—(CP)—David E. Lilienthal, recently retired chairman of the United States Atomic Energy Commission, says the government's control of atomic energy is "a cockeyed monopoly."

Addressing the Hotel Association of New York City last night, he said "emotions that play right business should move in on the atom and the government should loosen up some of its secrecy."

"We have underestimated until now the industrial side of the atom as a new technology—akin to the whole industrial fabric created through chemicals and the internal combustion engine," he said.

Lilienthal said "speculation on how to wipe out the earth. These fine minds came up with this contribution—in transplant 30,000,000 to 60,000,000 people. With all due respect to them, I want to state that this is a lot of high intellectual nonsense. It can't be done. It won't be done."

"But not in the cockeyed way of the government—in ultra secrecy," he added.

Earlier, Lilienthal said recent statements by some scientists that the hydrogen bomb would bring about the "end of the world" only served to create a "growing sense of helplessness and helplessness among our own people."

EMOTIONS AROUSED

These statements, he said,

Bridges Signs

He's Not A Red

SAN FRANCISCO, March 2.—(AP)—The International Longshoremen's and Warehousemen's Union (ILO) announced today its officers, including president Harry Bridges, have signed non-Communist affidavits under the Taft-Hartley labor act.

FOUR TOP atomic scientists look over world globe after radio broadcast in which they declared that H-bomb, if it works, could easily be made suicide bomb to kill everyone in world. From left: Dr. Leo Szilard, bio-

physicist of University of Chicago; Dr. Frederick Seitz, physicist, University of Illinois; Dr. Hans Bethe, physicist, Cornell University and Dr. Harrison Brown, chemist, University of Chicago.

British Press Demands Major Security Change

LONDON, March 2.—(AP)—The States Federal Bureau of Investigation had already set out one of Klaus Fuchs, sentenced to 14 years in prison for giving atomic secrets to Russia, led today to demands by the British press for a major shake-up and investigation of Britain's security organization.

The London Daily Herald said "British intelligence services are to be overhauled immediately." The Daily Herald, organ of the ruling Labor party, predicted there would be "sweeping changes in the security measures at government research establishments."

No official connected with security, however, would comment on the case at all.

PROFESSED RED

The big question was: how did the brilliant German-born scientist—a professed Communist since 1933—manage to draw Britain's security officials for seven years?

An editorial in the Daily Telegraph explained it by saying security measures were too slow to change when the wartime co-operation between Russia and the west broke down. The editorial said that the cold war was now being directed to the new mine, the paper said.

NO PRETENSION

The issue likely to bring about the most searching inquiries—perhaps even in parliament—was the fact that Fuchs' lawyer said he came from Germany in 1932 as a known Communist and "never pretended to be anything else."

Security police at the British atomic energy research establishment at Harwell, where Fuchs was one of the top physicists, had labelled him as "most security minded."

Uranium In Poland

BERLIN, March 2.—(Reuters)—New uranium deposits have been discovered near the Polish border town of Gorzka, southeast of Berlin, the official American news agency said. The Polish border town of Gorzka, southeast of Berlin, the official American news agency said. The Polish border town of Gorzka, southeast of Berlin, the official American news agency said.

**EATONIA Rugs
in Oriental Patterns**

These rugs are woven by the tufted weave... universally recognized as the superior method of rug manufacturing. Only the best grades of imported wool are used... thus guaranteeing longer life and a richer appearance. Made in colours and patterns. When you purchase an EATONIA rug you purchase a work of art, and also a practical, durable floor covering which will brighten your rooms and dangle your furniture to its best advantage.
